ANNUAL REPORT OF THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

To the General Assembly of South Carolina:

The Public Service Commission has the honor to respectfully submit for your consideration this its One Hundred and Ninety Third Annual Report.

Below is the listing of the present Commissioners and the Counties comprising their districts:

First District

Marjorie Amos-Frazier, Vice Chairman.....Charleston, S.C.
Beaufort, a portion of Berkeley, Charleston, Colleton, Dorchester, Hampton, Jasper

Second District

Henry G. Yonce.....Columbia, S.C.
Bamberg, Calhoun, Lexington, Orangeburg, Richland

Third District

Guy Butler.....Greenwood, S.C.
Abbeville, Aiken, Allendale, Anderson, Barnwell, Edgefield, Greenwood, McCormick, Oconee, Pickens, Saluda

Fourth District

Fred A. Fuller, Jr.....Greenville, S.C.
Greenville, Spartanburg, Union

Fifth District

Cecil A. Bowers.....Camden, S.C.
Cherokee, Chester, Chesterfield, Fairfield, Kershaw, Lancaster, Laurens, Lee, Newberry, Sumter, York

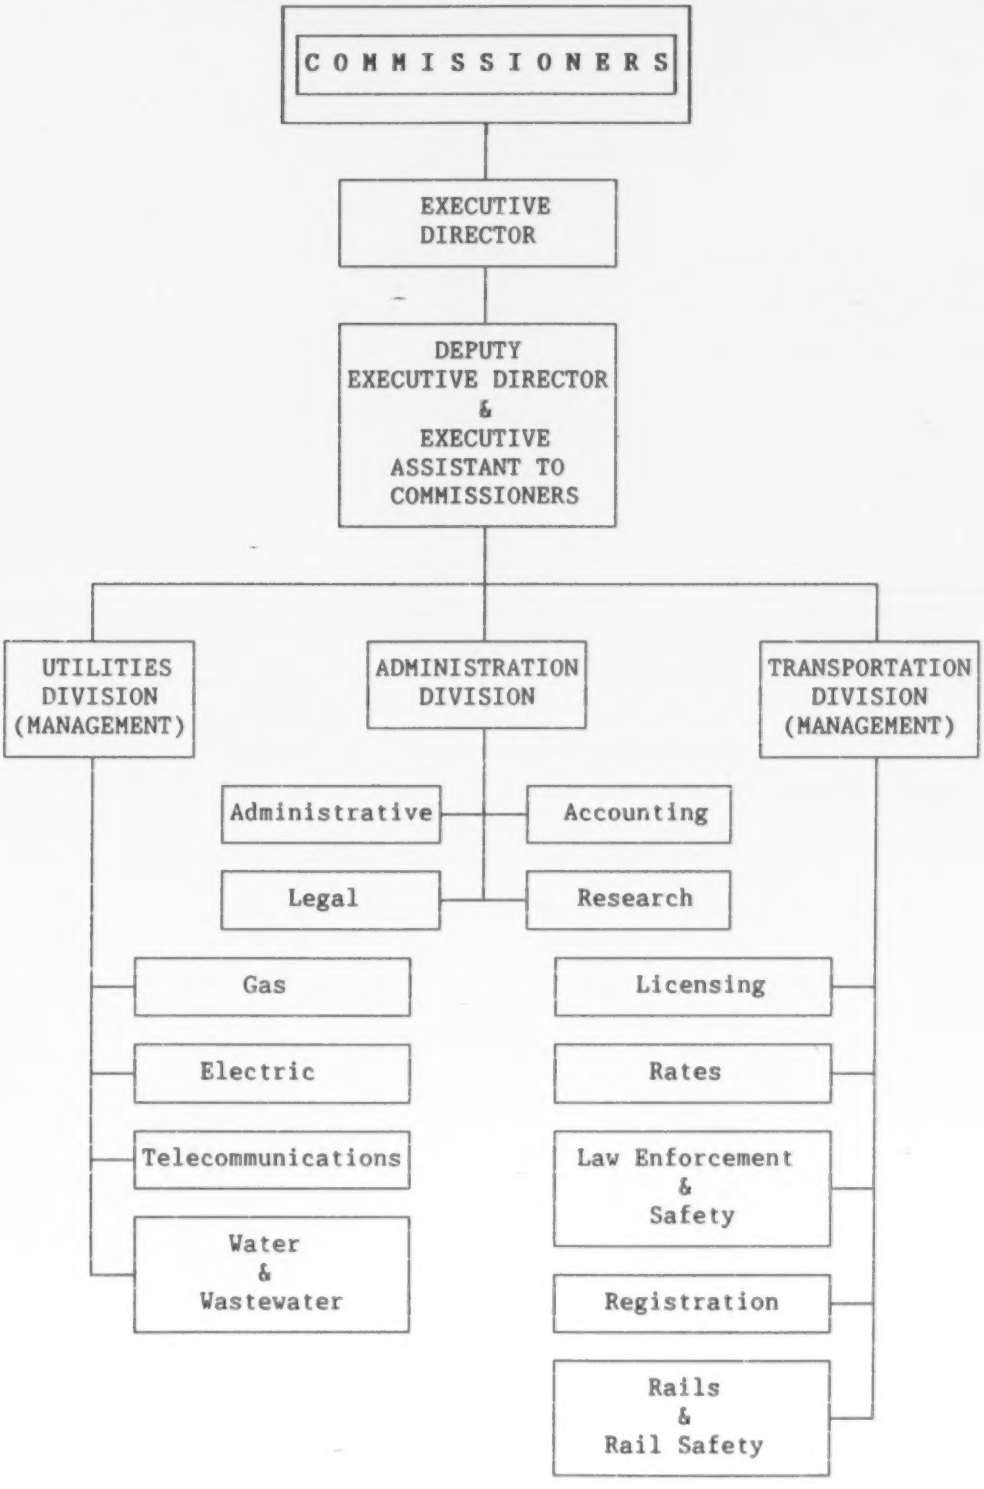
Sixth District

Caroline H. Maass, Chairman.....Pawleys Island, S.C.
A portion of Berkeley, Clarendon, Darlington, Dillon, Florence, Georgetown, Horry, Marion, Marlboro, Williamsburg

At Large

Rudolph Mitchell.....Saluda, S.C.
Statewide

THE SOUTH CAROLINA PUBLIC SERVICE COMMISSION



KEY COMMISSION PERSONNEL

Listed below are the names and titles of the responsible Commission Staff members and key personnel:

Charles W. Ballentine.....Executive Director

C. Dukes Scott.....Deputy Executive Director/ Executive Assistant to Commissioners

Richard L. Smith.....Director, Utilities Division

A. Randy Griffin.....Director, Transportation Division

Gary E. Walsh.....Assistant Director, Utilities Division

Oscar E. Coates, Sr.....Assistant Director Transportation Division

A. R. Watts.....Chief, Electric Department

James S. Stites.....Chief, Gas Department

James M. McDaniel.....Chief, Telecommunications Department

Charles A. Creech.....Chief, Water and Wastewater Department

William P. Blume.....Manager, Accounting Department

D. Wayne Burdette.....Assistant Manager, Accounting Department

Marsha A. Ward.....General Counsel

R. Glenn Rhyne.....Director, Research Department

Rosa Stephens.....Chief, Licensing Department

Robert McMillan.....Chief, Rates Department

Johnny Lane
Harold Dorman.....Captains, Law Enforcement and Safety Department

Linda S. Land.....Chief, Registration Department

Gordon W. Eckley.....Chief, Rails and Rail Safety Department

Jimmy W. Wood.....Controller

Carolyn C. Nelson.....Director, Personnel

STATUTORY AUTHORITY OF THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

Utility regulation in South Carolina had its beginning with the passage of an Act by the 1878 General Assembly, creating a Railroad Commission for the purpose of regulating railroads operating within the State. The first Commissioner was appointed December 24, 1878, by the then Governor Wade Hampton.

The General Assembly in 1910 established a Public Service Commission, empowering it with the authority to "fix and establish in all cities of the State rates and charges for the supply of water, gas or electricity furnished by any person, firm or corporation to such cities, the inhabitants thereof, and to prescribe penalties."

The 1922 General Assembly combined the two three-member commissions and added one additional commissioner to form the present seven-member commission. The name was changed in 1934 to the Public Service Commission.

The Commission is elected by the Joint Assembly upon nomination of the Merit Selection Panel for a term of four years, one from each of the six Commission Districts and one Commissioner at-large.

The Commission is composed of the Administration, Transportation, and Utilities Divisions.

The Commission, as provided for by the South Carolina Constitution and as vested with power and jurisdiction by the South Carolina General Assembly, performs the following general functions:

1. Regulation and supervision of investor-owned electric utilities as to rates, charges, services, facilities, practices, accounting procedures, the purchase, sale and lease of utility property and the issuance of securities; and the administration of the Rural Electric Cooperative Act, relative to territorial boundaries. S.C. Code Ann., Section 58-27-10 et. seq., (1976), as amended; and Reg. 103-300, et. seq. Also the Utility Facility Siting and Environmental Protection Act (1971), S.C. Code Ann., Section 58-33-10, et seq.

2. Regulation and supervision of rates and charges, services, facilities, practices and accounting procedures of all intrastate investor-owned gas, street railway, water and severage companies; and the administration of the Gas Safety Act of 1970. S.C. Code Ann., Sections 58-5-10 et. seq. (1976), as amended; Reg. 103-400 et. seq.; Reg. 103-500 et. seq.; Reg. 103-700 et. seq.

3. Regulation and supervision of rates and charges, services, facilities, practices and accounting procedures of all telephone companies within the State. S.C. Code Ann., Section 58-9-10 et. seq., (1976), as amended; Reg. 103-600 et. seq.

4. Regulation and supervision of rates and charges, services, facilities, practices and accounting procedures of all radio common carriers within the State. S.C. Code Ann., Sections 58-11-10 et. seq. (1976), as amended.

5. Regulation and supervision of for hire motor carriers of freight and passengers relative to rates, schedules, rules, charges and facilities; issuance and supervision of the administration of Certificates of Public Convenience and Necessity; administration of Registration and Safety Act of 1970 and Sections 58-23-1110, et. seq. (1976), as amended; S.C. Code Ann., Sections 58-23-10 et. seq., (1976), as amended; Regs. 103-100, 103-200, et. seq.

6. Regulation and supervision of express and telegraph companies. S.C. Code Ann., Sections 58-9-2310 et. seq. (1976), as amended.

7. Regulation and supervision of rates, services, charges, schedules, facilities of railroads and railways. S.C. Code Ann., Section 58-17-170 et. seq., (1976), as amended; Commission Rules governing service supplied by rail companies.

SUMMARY OF ACTIVITIES DURING FISCAL YEAR 1988-1989

During the past fiscal year, the Transportation Division dispensed license tags to 15,887 operating units varying in price from $7.50 to $125.00 each, according to payload. The various license tag fees assessed produced revenues of $1,177,566.29

As of December 31, 1989, 78 electric, gas, telephone, telegraph, and radio common carrier utilities were operating within the State with a total plant investment of 11.5 billion dollars generating gross revenues of 4.5 billion dollars. The 86 water and sewerage companies operating within the State generated 207 million dollars of gross revenues.

From the tremendous growth of industry in the State in the past several years, coupled with the expanding economy, as evidenced by the above figures, conservative projections indicate that utility installations will more than double within the next ten years. During the past fiscal year, the Commission processed 1,637 complaints; hearings were held thereon when necessary, and over 1,100 Orders were issued.

SUMMARY OF EXPENDITURES

A.	EXPENDITURES	
	I. Administration.....	1,409,005
	II. Utilities.....	1,524,907
	III. Transportation.....	2,907,910
	IV. Employer Contributions.....	928,045

B.	SOURCE OF FUNDS	
	I. State Appropriations:	
	A. Balance from Prior Year.....	-
	B. General Appropriation Act....	6,932,285
	C. Less Budget and Control Board Reduction Lapsed.....	185,696
	Total State Appropriation	6,746,589
	II. Department Revenue:	
	A. Federal Funds.....	3,157
	B. Other Funds.....	-0-
	TOTAL FUNDS.....	6,746,589

I. THE ADMINISTRATION DIVISION

The following four departments are included in the Administration Division:

- Administrative Department
- Office of General Counsel
- Accounting Department
- Research Department

The activities of the Administration Division for the fiscal year 1989-1990 are summarized by each Department on the following pages of this Report:

A. THE ADMINISTRATIVE DEPARTMENT

The functions and responsibilities of the Administrative Department are as follows:

1. Maintains formal docket control which includes the receipt of all Petitions, dockets matters that come before the Commission, notifies the public of such

request, determines the time required to hear a matter, sets hearings on official calendar and notifies parties of record of hearing dates.

2. Custodian of all official papers and records of the Commission and certifies same.

3. Personnel - supervises and administers the personnel program of the Commission.

4. Budget - supervises the planning and directs preparation of the budget submitted to the Budget and Control Board; supervises financial control of expenditures in accordance with fiscal appropriations.

5. Purchasing - supervises the purchasing of all supplies and equipment, equipment inventory and the maintenance of records for the Commission.

6. E.E.O.C. - acts for the Commission as liaison with the State Human Affairs Commission.

7. Supervises Hearing Reporters of the Commission.

The Administrative Department docketed 746 matters which came before the Commission during the 1989-1990 fiscal year. Numerous filings, such as motions, petitions, and various requests, were posted to these dockets for the Commission's consideration. The three hearing reporters transcribed the testimony and received evidence in the 85 hearings held before the Commission, including performing their duties at the night hearings held so that the public may have the opportunity to express their views before the Commission.

B. OFFICE OF THE GENERAL COUNSEL

The Office of General Counsel performs the following functions:

(a) Represents and appears for the people of the State and the Commission Staff in all actions and proceedings involving any question of general and public interest within the jurisdiction of the Commission and, if directed to do so by the Commission, intervenes, if possible, in any action or proceeding in which any such question is involved;

(b) Commences, prosecutes and expedites the final determination of all actions and proceedings directed or authorized by the Commission;

(c) Advises the Commission Staff and each Commissioner,

when so requested, in regard to all matters connected with powers and duties of the Commission and the members thereof;

(d) Generally performs all duties and service as attorney to the Commission which the Commission may require of it.

Attorneys in the Office of the General Counsel represented the Commission Staff in 85 hearings before the Commission during the 1989-1990 fiscal year. These hearings involved both Utility Division and Transportation Division matters and included issues ranging from billing disputes to major rate increases to applications for certificates of public convenience and necessity. The Office of the General Counsel also participated in informal proceedings along with Commission Staff members and the interested parties for the purpose of resolving complaints or inquiries or for the purpose of gathering information in matters arising under the jurisdiction of the Commission.

During the 1989-1990 fiscal year, the Office of the General Counsel had decisions rendered in appeals before the Circuit Court of South Carolina and the State Supreme Court. Several cases were pending before both Courts. The Office of the General Counsel filed various petitions and comments on behalf of the Commission before the Federal Communications Commission, Federal Energy Regulatory Commission and the Interstate Commerce Commission.

C. ACCOUNTING DEPARTMENT

The Accounting Department is composed of fifteen Accountants, one Rate Analyst, one Project Administrator, and one Administrative Specialist, who all report to the Accounting Director.

The Accounting Department's primary function is to examine the books and records of Utility and Transportation Companies which are requesting an increase or changes in rates. A rate case examination implements principles and procedures based upon regulatory laws and in this respect differs from audits conducted by a Company's public accountants. After the examination, the Staff makes adjustments in the company's operations to achieve a "normalized" test year. Staff's exhibits and testimony are directed toward the company's operations and Staff's adjustments. Based on the Staff's report and company information the Commissioners are able to determine an equitable rate of return on the company's investment.

The Accounting Department also is responsible for performing compliance audits of both Utility and Transportation companies' books and records. Primary attention is placed on the determination of the proper rates of return in which the audited company is earning. Such audits can lead to show cause hearings in which Staff will offer testimony as to their findings.

The Staff also insures that proper cutoffs of the test year are implemented as well as substantiating that revenues, expenses, and rate items are allocated according to proper jurisdiction. Employing these procedures, Staff verifies the utility's operations and verifies the books and records to the filing and related exhibits.

Emphasis is placed upon policies and procedures and the instructions thereto, as stated in the Chart of Accounts for the various types of companies. The Chart of Accounts outlines which revenues, expenses, and asset accounts that will ultimately determine the company's rate of return on investment.

After completing the examination, a report is prepared with exhibits and a written explanation of each of the exhibits. Copies are distributed to each Commissioner, the Company, Intervenors, members of the Staff, and other parties of record. A member of the Staff will testify and submit the Report into evidence during the hearing.

The Department also reviews the changing prices attributable to fuel prices. Specifically electric companies utilize a fuel adjustment clause and gas companies use a purchased gas adjustment clause. The Department semiannually monitors fuel costs, performs audits, prepares reports and participates in formal hearings before the Commission centering around escalating fuel costs. Audits related to refunds from gas suppliers back to S.C. jurisdictional ratepayers are also conducted.

The Accounting Department administers the gross receipts tax for regulatory expenses paid on an annual basis by the utilities serving customers in South Carolina. The utilities are required to report their revenues received within the State. Tax assessments are based on these revenues.

The Accounting Department has prepared tables showing Operating Revenues, Operating Expenses, Net Operating Income, State and Local Taxes Paid, and Gross Plant in Service for Electric and Gas Utilities for the years 1986-1989. Operating revenues, Operating Expenses, Net Operating Income, and Gross Plant in Service are shown for Telephone Utilities for the year ending 1989. Operating Revenues, Operating Expenses, and Net Operating Income are shown for Water and Sewerage Utilities for the year 1989. Operating revenues and expenses are shown for transportation companies operating in South Carolina for the year 1989.

The Tables are as follows:

TABLE A - Privately Owned Electric Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the Years Ended December 31, 1986-1989.

TABLE B - Gas Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the Fiscal and Calendar Years Ended 1986-1989.

TABLE C - Telephone and Telegraph Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For the year ended December 31, 1989.

TABLE D - Water and Severage Utilities Operating in South Carolina. Selected Statistics for South Carolina only. For Fiscal and Calendar Year 1989.

TABLE E - Transportation Companies Operating in South Carolina. Selected Statistics for Fiscal and Calendar Year 1989.

D. RESEARCH DEPARTMENT

The Research Department provides the Commission with specific data and economic and financial analyses necessary for the regulation of firms under the Commission's jurisdiction. The Department presents testimony and exhibits regarding the allowable rate of return on common equity for utilities, and also at various times provides energy and peak demand forecasts for electric utilities regulated by the Commission. The Department is active in assisting in the development of Commission policy regarding new and emerging issues in a dynamic regulatory environment. These issues include utility diversification, least cost planning, intralata toll competition in telecommunications, costing and pricing of services within a more competitive environment. The Department is specifically involved in electric, natural gas, and telecommunications issues.

The Department develops estimates of the allowable rate of return on common equity based on analyses of investor expectations. Also the Department has, in the past, developed forecasts of energy usage and peak demand for ten to twenty years into the future. To properly carry out these responsibilities, the Department must seek to employ state-of-the-art financial and economic methodologies and techniques. The Department estimates the rate of return of a utility by relying on financial techniques such as the Discounted Cash Flow and the Capital Asset Pricing Model. Forecasts have been developed through the use of Econometric modeling techniques, including multiple regression and input/output models.

The Research Department also reviews proposals by the various regulated utilities pertaining to the issuance of long-term debt, preferred stock, common equity, and other forms of financing. In addition, quarterly reports are developed and provided to the Commission on the cost of equity for the ten major regulated utilities operating in South Carolina. These reports enable the Commission to monitor the impacts of changing economic and financial conditions on the risk and expected return of the utilities. During the 1989-1990 fiscal year, the Department testified on the rate of return issue in five major rate cases. The Department has testified over sixty times on the rate of return since it was established in 1977. Since its creation, the Research Department has also been involved in administering management audits of certain utilities operating in South Carolina.

The Research Department reviews trends in costs, revenues, earnings per share, dividends per share, market price, book returns, bond yields, capital structure, market-to-book ratios, dividend yields, and other items as part of its analysis of the business risk, financial risk, and market risk and financial conditions of each major utility regulated by the Commission. The Department also monitors trends in overall economic indicators

such as Gross National Product, Standard and Poor's 500 Market Index, interest rates, bond yields, and inflation rates. Regional and State economic conditions are also reviewed to provide a better understanding of the environment in which the regulated utilities operate in South Carolina.

II. UTILITIES DIVISION

The function of the Utilities Division of the Public Service Commission is to perform the necessary duties related to the regulation of utilities under the jurisdiction of the Commission. The management staff plans, coordinates, directs and supervises the work of its four departments as shown below:

Gas Department
Electric Department
Telecommunications Department
Water and Wastewater Department

The activities of this Division for the fiscal year 1989-1990, affecting the various utility groups are summarized by each Department on the following pages of this report. 392 orders were issued through this Division during the fiscal year, and public hearings were held in connection with 64 of these orders. The Staff received and processed 1,587 complaints which includes 1,114 WATS line complaints.

A. GAS DEPARTMENT

There are five private corporation natural gas utilities serving customers in South Carolina. The rates and services of these utilities are subject to jurisdiction of the Public Service Commission. The natural gas utilities and the communities they serve are listed in the tables included in this report.

Natural gas brought into South Carolina is produced principally in the gas fields of Louisiana and Texas, including the offshore areas in the Gulf of Mexico. During the fall of 1978, our State started receiving gas from Algeria. Liquefied natural gas was transported from Algeria to a regasification plant and marine terminal located on Elba Island, which is near Savannah, Georgia. However, this plant operated by Southern Energy Company, presently is not receiving the shipments because the Algerian Government has terminated the contract for the supplies.

Gas is transported to South Carolina by two interstate pipeline companies: Transcontinental Gas Pipeline Company and Southern Natural Gas Company. Transcontinental's pipeline crosses the State in the northwest corner, passing just south of Anderson and Spartanburg, South Carolina, while Southern's pipeline enters and terminates in our State at a point near Aiken. All natural gas consumed in South Carolina is furnished by these two interstate pipelines which furnish gas to natural gas authorities, municipalities, and privately owned gas utilities.

The Federal Energy Regulatory Commission has jurisdiction over rates and services of interstate pipeline companies and the price of natural gas sold by producers to interstate pipelines. These price fluctuations have a direct bearing on the cost for natural gas to the ultimate consumer in South Carolina.

The Commission received a number of complaints regarding services and charges from customers of the gas utilities. Each complaint was investigated and handled informally without necessity of a special hearing.

Many communities in South Carolina are receiving natural gas through facilities owned by municipalities or gas authorities over which the Commission has no rate or service jurisdiction. However, the South Carolina Gas Safety Act of 1970 vested the Commission with pipeline safety jurisdiction over all gas system operators not subject to Federal Energy Regulatory Commission jurisdiction. Therefore, pipeline safety jurisdiction includes public utilities, municipalities, natural gas authorities, certain facilities operated by interstate companies, certain public housing authorities and others who purchase natural gas through a master meter for subsequent distribution to individual consumers, certain liquefied petroleum systems, and methane landfill facilities. As of June 30, 1990, the Commission's pipeline safety jurisdiction included a total of thirty-seven (37) individual operators.

During calendar year 1989 representatives of the Commission made 349 inspections of natural gas systems to ensure compliance with the South Carolina Gas Safety Act and the Minimum Federal Safety Standards for Natural Gas Pipelines. One hundred forty-two (142) violations were found during these visits and, as of December 31, 1989, the Commission Staff verified compliance covering One hundred thirteen (113) of these violations. The remaining violations necessitate continued monitoring to substantiate that they are corrected and brought into compliance with the Pipeline Safety Standards.

All five private gas utilities are operating under the provisions of curtailment plans designed to allocate gas on the basis of priority of service established by such factors as efficiency of use, safety considerations, consumer reliance, and alternate fuel availability.

Two factors showing the pace of activity by natural gas utilities are the average number of customers and the gross plant investment. The growth in total customers served by each privately owned gas utility is shown by one of the accompanying tables. The total of natural gas customers grew from 252,321 in 1985 to 277,582 in 1989 for an increase of 10.01% over the five years.

One hearing for increase in rates was held during the fiscal year covered in this report. Additionally, the Commission adjusted gas rates for the jurisdictional gas utilities in accordance with approved purchased gas adjustment clauses which are designed to track changes in rates of interstate pipeline companies. Some of these rate changes were retroactive decreases which resulted in refunds being passed to the customer through billing credits.

The Commission has issued Orders to all privately owned natural gas utilities, under the Commission's jurisdiction, establishing annual hearings to review the utilities' purchased gas adjustment procedures and gas purchasing policies. During the fiscal year the Commission completed these annual hearings for all five (5) privately owned utilities.

Because of various changes in the regulatory policy at the federal level, the gas industry is going through considerable changes. The customers in our State are now permitted to purchase their own gas supplies and rely only on our gas utilities to transport the gas. The gas utilities also are permitted to secure their own system supply gas from sources other than the interstate pipelines.

In calendar year 1987 the Federal Energy Regulatory Commission (FERC) issued an order to the interstate pipelines whereby mechanisms were adopted for the recovery of buy-out and buy-down costs. These cost are associated with payments made by the interstate pipelines to producers to extinguish oustanding take-or-pay liability under exisitng contracts, or to reform the price, volume or the terms of the contracts. In the years following enactment of the Natural Gas Policy Act, interstate pipelines sought to obtain additional supplies, much of which were purchased under contracts incorporating substantial take-or-pay obligations. However at the same time gas prices were being driven up, demand for natural gas began to soften and the interstate pipelines began to incur take-or-pay obligations from the producers. Both interstate pipelines serving our State have begun to collect these charges from the natural gas distributors under the Commission's jurisdiction. The Commission has ruled that the gas distributors may recover the charges from their customers through their approved purchased gas recovery procedures.

B. ELECTRIC DEPARTMENT

The Electric Department, operating through the Utilities Division, is responsible for providing the Commission with data and information necessary for the regulation of all privately-owned electric utilities operating in South Carolina. This regulation of the electric utilities is designed to provide adequate service at reasonable rates to the people of South Carolina while assuring that these utilities are provided an opportunity to earn a reasonable rate of return on the fair values of properties devoted to the public service.

The Electric Department also handles service and billing complaints, during the fiscal year 936 formal complaints were investigated. Numerous other inquiries and requests for information were received and handled without formal investigation.

Since its installation in 1976, the toll-free telephone line provided by the Commission has provided a means for customers throughout the entire State to contact their Commissioner or a member of the Commission Staff to discuss problems, complaints or to request information. This has been a valuable asset not only to provide the customer easy access, but also to provide the Commission with a consumer's view from across the State of the electric utility business.

Carolina Power and Light Company, Duke Power Company, and South Carolina Electric and Gas Company, the three major utilities serving the State are planning or building new generating plants, transmission and distribution lines so that adequate electric power will be available for present customers and those who select to locate within the State.

South Carolina customers are receiving power from the Clarks Hill Project, the Hartwell Project, and the Richard B. Russell Project through the transmission lines of the South Carolina Public Service Authority, Duke Power Company and South Carolina Electric and Gas Company.

The VACAR Group of the Southeastern Electric Reliability Council is a group of electric utilities operating in Virginia, North Carolina and South Carolina and includes Carolina Power and Light Company, Duke Power Company, South Carolina Electric and Gas Company, South Carolina Public Service Authority, Virginia Power Company, as well as two smaller utilities (Yadkin and SEPA). This Council was formed to increase reliability of bulk electric power supply of the area served and is one of the national groups which makes up several area councils. These companies exchange information on planning, construction, system loads and other matters affecting the bulk power supply within the area.

The South Carolina electric consumer, after having enjoyed continually decreasing costs from 1931 to 1969, has seen increases in rates throughout the 1970's and early 1980's. The rapidly increasing cost of money, construction, fuel and other items which go into the cost of providing electric service have dictated the need for the Commission to grant rate increases to the utilities under its regulation. These increases are designed to insure that the Companies will be able to recover the cost to serve the increasing demand. Carolina Power and Light Company filed for an increase in February 1987 to cover a portion of the cost of the Harris Nuclear Plant and filed the companion request in March 1988. The Company currently has no major generating plant under construction. Duke Power and South Carolina Electric and Gas Companies' last general rate increase applications were filed in May 1986 and January 1989, respectively. As construction and inflation have slowed, fuel prices have stabilized. All three utilities are also purchasing power from small power producers and cogenerators as required by the Federal Energy Regulatory Commission under the Public Utility Regulatory Policies Act of 1978 (PURPA) to meet system loads while encouraging conservation and efficient use of energy resources.

It is believed that good planning and management have provided South Carolina with adequate electric power in the past and that the organizations which generate and sell electric power in South Carolina will continue to provide adequate power at reasonable rates for the present and future needs of the State. In order to assist in the accomplishment of these goals the Commission, in 1987, began general proceedings to establish a framework for Least Cost Planning (LCP) development. Early on it became apparent that the North Carolina Public Utilities Commission and this Commission were on a similar schedule and envisioned like results while regulating two of the same utilities. Thus, a plan was devised to jointly sponsor a conference to explore the areas of LCP from which a cohesive plan might be developed independently for each state while sharing the same background and resources. The Conference was held in October 1988 and was jointly sponsored by the North Carolina Public Utilities Commission and the South Carolina Public Service Commission with the North Carolina Alternate Energy Corporation as the Coordinating Agency. The four jurisdictional utilities have filed Least Cost Plans. These are now being reviewed and additional discovery continues in preparation for a formal hearing before the Commission in late 1990 or early 1991.

In an effort to reduce the need for more capital for new construction, and to conserve the energy sources we have, all three of the major utilities in the State are presently engaged in Load Management programs to decrease peak demands on the electric systems while providing adequate quality service to the customers. These programs are providing means to slow the rate of increase in the cost of electric service to the customer.

RATES

During 1989, the 826,554 residential customers in South Carolina served by the privately-owned electric utilities paid $764,262,073 for 10,576,977,000 kilowatt-hours of electricity. The average South Carolina residential customer used 12,796 kilowatt-hours at an average cost of $924.64 or 7.23 cents per kilowatt-hour, a 0.70% increase from 1988. In comparison, the average United States consumer used 9,070 kilowatt-hours at an average cost of $718.34 or 7.92 cents per kilowatt-hour, a 1.67% increase from 1988.

Four graphs have been prepared and are included in this report comparing residential electric consumption. The first two show the average use and average cost for customers served by the three large privately-owned utilities operating in South Carolina. The remaining two compare the average cost and average use of South Carolina consumers with the average United States consumer.

There were 135,787 commercial and small power customers of the privately-owned utilities who purchased 8,434,513,000 KWH at an average rate of 6.18 cents per KWH, compared to the national average of 7.25 cents per KWH.

The 3,537 industrial customers of the privately-owned utilities in South Carolina purchased 18,021,988,000 KWH at an average rate of 4.43 cents per KWH, compared to the national average of 4.83 cents per KWH.

Industries now located within South Carolina and those desiring to move into the State will find that electric power can be secured throughout practically the entire State.

TERRITORIAL ASSIGNMENT ACT

The General Assembly passed the "Territorial Assignment Act" in 1969 and the Commission, pursuant to the Act has required all "electric suppliers" to file maps with the Commission showing distribution electric lines in existence as of July 1, 1969. As of July 1, 1971, mylar maps of all counties in South Carolina had been filed with the Commission and negotiations between the "electric suppliers" was begun.

Territory in most of South Carolina has been agreed upon by "electric suppliers" and Orders approving the assignment of the territory have been issued by the Commission.

SITING ACT

The 1971 General Assembly passed an Act to give the Commission authority over "UTILITY FACILITY SITING AND ENVIRONMENTAL PROTECTION" effective January 1, 1972.

The three major utilities are now providing for the Commission, on an annual basis, a report containing a ten-year forecast of loads and resources including probable construction.

HURRICANE HUGO

Hurricane Hugo began as a tropical depression, off the west coast of Africa, on Sunday, September 10, 1989. On September 13, it had attained hurricane status with 140 mph winds. By September 20, Hugo had swept through Puerto Rico and the Virgin Islands, killing 18 persons, leaving 30,000 people homeless, and causing over $300 million in property damage.

By 3:00 pm on September 21, Hugo was located about 220 miles southeast of Savannah, Georgia, with sustained winds of 125 mph. The leading edge of Hugo began to hit the coast of South Carolina at 10:00 pm. Around midnight the full force of the storm hit the coast with sustained winds of 135-139 mph. The storm surge was measured in McClellanville at 20.3 feet above normal tide. Hugo continued moving through South Carolina, during the early morning hours of Friday, September 22. Winds were estimated to be approximately 103 mph as the storm moved through Sumter. By 3:00 am, Hugo had moved 200 miles inland and struck Charlotte, NC with 85 mph winds. The hurricane was eventually downgraded to a tropical storm as it continued to move through Virginia, West Virginia, eastern Ohio, Canada, and over the next few days back into the Atlantic Ocean.

In its path through the Carolinas, Hugo was estimated to have caused 37 deaths and approximately $6.5 billion in property damage. The storm caused extensive damage to the electric utility systems in the State. 276,271 SCE&G customers; 140,611 CP&L customers and 46,420 Duke Power customers in South Carolina were left without electric power. Statewide, approximately 892,200 electric customers were without power as a result of Hurricane Hugo. The Duke Power system was hit hardest in Charlotte, NC, where 313,420 of 359,420 customers lost electric power.

An analysis of Hurricane Hugo costs compiled as of April 9, 1990, indicated a total system cost to CP&L, Duke Power and SCE&G to be $120,845,810. The total S.C. jurisdictional cost was $66,571,352. CP&L's expensed costs related to Hurricane Hugo were nominal and therefore the company did not request any special rate treatment. The expenses were written off in both South Carolina and North Carolina. Duke Power requested and received a five year amortization, effective January 1, 1990. Rate treatment was reserved until the company's next rate case. SCE&G proposed to offset the net after tax write-off of $13,783,223 by applying an equal amount of Westinghouse settlement credits. This treatment was presented to the Commission under Docket No. 89-543-E. The Commission granted the Company's request in Order 90-132, dated February 6, 1990, but required a cap on the recovery at $13,783,224 and a true-up provision.

Hurricane Hugo caused an unprecedented energy emergency to the Carolinas, however, the affected utilities responded quickly with the use of emergency response plans for severe storms. These plans were a major factor in the overall high state of emergency response preparedness and attributed to the rapid restoration of power.

C. TELECOMMUNICATIONS DEPARTMENT

The Telecommunications Department of the Utilities Division is responsible for the work necessary for the regulation of rates, compliance with tariffs, and quality of service pertaining to twenty eight (28) telephone companies, thirty one (31) companies that are certificated to provide long distance services, eleven (11) companies that are certificated to provide cellular services, and six (6) radio common carriers.

To be able to better serve the needs of the customer, who expects better service without delays, equipment failures, or inaccurate billing, the Staff is constantly monitoring the operations of the seventy six (76) telecommunications companies under the regulation of the Commission. These inspections and procedural evaluations are in the form of central office inspections, cable tests, safety inspections, complaint visits, payphone inspections, and compliance reviews pertaining to business office and general operations of the Companies. Forty four (44) facilities and safety inspections were performed during the year to determine the condition of equipment and the grade of service being rendered. The Staff performed thirty (30) compliance reviews to determine the companies' level of adherence with the various tariffs and regulations set forth by the Commission. Three hundred and thirty six (336) inspections of customer owned coin operated telephones were performed to check for their level of compliance with the Commission's guidelines. Also, the Staff made five (5) visits to customer locations to try to settle filed complaints and four (4) visits to other locations to check boundaries and work on extended area requests. These four hundred and nineteen (419) inspections are a vital part of the department's overall function.

The Staff maintains an updated file on all tariffs, Commission orders, territorial maps, and other pertinent data. The Department was involved in twenty six (26) formal hearings involving telecommunications companies. In addition, two hundred and twelve (212) tariff filings covering new services or changes in language were reviewed by the Staff and approved by the Commission.

During the past year, the Department processed in excess of four hundred and fifty five (455) complaints concerning matters pertaining to customer problems encountered in the areas of service and billing, as well as, miscellaneous

matters. The Staff investigated and made every effort to resolve these complaints in a way that was satisfactory to all involved parties. This contact with the public is very vital to maintaining Departmental credibility, as well as a satisfactory grade of service to the companies' subscriber bases.

The telecommunications companies have continued to make large investments to improve their central offices, outside plant, and toll equipment in an endeavor to cope with their constantly expanding and changing subscriber base and the subscribers' desires for new and innovative telecommunication services. The Staff has strived to stay abreast of the needs of the subscriber and the changing industry by maintaining a close working relationship with the Companies in order to better serve all affected parties.

D. WATER AND WASTEWATER DEPARTMENT

The majority of water and wastewater utilities operating in the State of South Carolina are owned and operated by municipalities and public water and sewer districts which are exempt, by state statute, from jurisdiction of the Public Service Commission. The City of Anderson is provided water service by a privately owned utility and therefore is regulated by the Public Service Commission.

Efforts to improve efficiency of each company has brought consolidation of many of the smaller companies. As of June 30, 1990, there are 256 water systems and 193 sewerage systems operating under 108 companies regulated by the South Carolina Public Service Commission.

There was one (1) new water or sewerage utility granted Certificates of Public Convenience and Necessity during the fiscal year and two (2) water or sewerage utilities that were granted certificated areas under formally organized corporations.

More stringent demands by state and federal agencies, higher operating and maintenance costs, wages and supplies, caused seven (7) water and sewerage companies, operating in this state, to apply to the Commission for authority to increase their rates and charges for water and sewerage service.

As prescibed by law and after proper advertisement, public hearings were held on each application for adjustments in water and sewerage rates and charges.

The problems of water and sewerage utilities continue to be problems of the Public Service Commission. The Public Service Commission received a substantial number of customer complaints during the fiscal year. These complaints fell into one of two categories, service or billing. Each of these complaints were investigated and settled informally, or if necessary, resolved through public hearings.

Prior to issuing a Certificate of Public Convenience and Necessity to a water and sewerage utility, the Commission, among other items, required a performance bond in accordance with Section 58-5-270 of the 1976 Code of Laws of South Carolina as amended, complete cost and rate data, approval of adequate design, and supply potential, plat of proposed service area and copy of engineering plans and specifications.

WATER UTILITIES OPERATING IN SOUTH CAROLINA AS OF JUNE 30, 1990

NAME OF UTILITY	SERVICE AREA	MANAGING OFFICER/ADDRESSEE	ADDRESS
*AAA UTILITIES, INC.	HUNTINGTON PARK, MILL POND, CAPEWOOD, RED BANK MILLS, MAHAGONY RUN, CAPEWOOD II, LAND POINT, MURRAY HILL ESTATES, MALLARD BAY, LAKESIDE FOREST, FAIRLAWN, HILTON SOUND	J.E. SWEARINGEN	LEXINGTON, SC

III. TRANSPORTATION DIVISION

The functions of this Division are to enforce the South Carolina Motor Vehicle Carrier Law, 1976, as amended, and the Commission's Rules and Regulations Pertaining to Motor Carriers. The Law provides for the regulations, supervision and control of persons, firms, corporations, etc., operating motor vehicles used in the business of transporting persons or property for compensation over the highways of the State, and imposes licenses fees to cover the cost of administration. Fees Collected by the Registration Department and Licensing Department totalled $3,567,923.42.

The Transportation Division consists of the following five Departments:

Licensing Department
Rates Department
Law Enforcement and Safety Department
Interstate Registration Department
Rails and Rail Safety Department

A. LICENSING DEPARTMENT

The Licensing Department of the Transportation Division consists of the following three sections:

Certificate Section
Insurance Section
License Tag Section

1. CERTIFICATE SECTION

The responsibilities of the Certificate Section are to process all applications, to acquire new, to amend existing, to transfer, to suspend, or to cancel Certificates of Public Convenience and Necessity for the transportation of persons or property.

There are presently 1,310 intrastate and 615 interstate only motor carriers holding Certificates of Public Convenience and Necessity granted by the Commission, as follows:

CLASS	INTRASTATE CARRIERS	INTERSTATE ONLY CARRIERS	TYPE OF CARRIER
A	31	0	Common carrier transporting passengers over regular routes and on regular schedules.
B	1	0	Common carrier transporting passengers not over regular routes or on regular schedules.
C	264	11	Common carrier - taxicabs and charter buses - not operating over regular routes or on regular schedules.
D	3	6	Common carrier transporting property over regular routes and on regular schedules.
E	872	569	Common carrier transporting property over irregular routes and on irregular schedules.
F	139	29	Contract carrier transporting property over irregular routes and on irregular schedules.

Notices of Filing (which must be published in newspapers of general coverage in the affected service areas) are prepared on Applications for Class A, Charter C, Class D, Class E, and Class F, for new authority, and to transfer or amend existing authority. Notices of Filing were prepared on 193 Applications during this fiscal year, and 16 public hearings were held, as indicated below:

HEARINGS HELD DURING 1989-90 FISCAL YEAR

MATTERS HEARD	NO. OF HEARINGS	APPROVED	DENIED	WITHDRAWN	MISC. RULINGS
Class E					
New Certificate	9	9	0	0	0
To Transfer Certificate	1	1	0	0	0
To Amend Certificate	3	3	0	0	0
All Classes					
Petition for Rule to Show Cause	3	3	0	0	0
FISCAL YEAR TOTALS	16	16	0	0	0

Applications for Class A (Restricted) and Class C (Taxicab) Certificates do not usually require Notices of Filing or Hearings. It is usual procedure for each of these Applications, after going through the acceptance process, to be presented to the Commission for a decision.

MOTOR CARRIER TRANSACTIONS BY CLASS

Fiscal Year 1989-1990

TYPE TRANSACTIONS	Class A	B	C	D	E	F	FISCAL YEAR TOTALS
New Authority Granted	3	0	43	0	300	9	355
Amended	0	0	7	0	38	7	52
Cancelled	5	0	30	0	95	19	149
Suspended	0	0	6	0	33	2	41
Suspension Lifted	0	0	0	0	2	1	3
Transferred	0	0	0	0	6	0	6
Sale or Transfer of Stock	0	0	0	0	2	0	2
Dismissed	0	0	4	0	22	0	26
Denied	1	0	0	0	3	0	4
Withdrawn	0	0	0	0	4	1	5
Reinstated	1	0	2	0	7	0	10
Rescinded	0	0	4	0	17	2	23
Miscellaneous	0	0	1	0	42	1	44
TOTALS	10	0	97	0	571	42	720

The Certificate Section processed and issued 602 Orders during the fiscal year. The majority of the Orders involved the issuance of Certificates of Public Convenience and Necessity, which are only issued after the motor carrier has filed all applicable insurance, rates, and license tag fees.

There were 603 Certificates of Public Convenience and Necessity processed during the fiscal year, as outlined below:

CERTIFICATES PROCESSED DURING

FISCAL YEAR 1989-90

CLASS	A	C	D	E	F	YEAR TOTALS
NEW	3	43	0	300	9	355
AMENDED	0	7	0	38	7	52
TRANSFERRED	0	30	0	6	19	55
CANCELLED	5	6	0	95	2	108
SUSPENDED	0	0	0	33	0	33
TOTAL CERTIFICATES PROCESSED	8	86	0	472	37	603

2. INSURANCE SECTION

The function of the Insurance Section is to maintain the insurance filings made by for-hire intrastate motor carriers and interstate motor carriers who base equipment in South Carolina. They are approximately 2,000 motor carriers who are required to file evidence of bodily injury and property damage liability insurance. Of these carriers, approximately 750 are required to filed evidence of cargo insurance.

The Insurance Section maintains a suspense file for approximately 60 days on insurance filings for which an application is not pending. Upon receipt of an application, the filing is accepted and insurance filings which are not followed up by an application are returned.

The Insurance section notifies regulated carriers and Inspectors in their respective districts of an impending thirty (30) day notice of cancellation of insurance and if other coverage has been filed within that time limit, the motor carrier must cease operations on the date stated in such letter. When a replacement filing is received, the mtoor carrier and inspectors are notified by letter that the motor carrier is in compliance with the Commission's insurance requirements and the motor carrier may resume operations.

Prior to the issuance of a Certificate of Public Convenience and Necessity and the rendition of motor carrier service authorized therein, evidence of the required insurance must be on file with the Commission. Once licensed, motor carriers must keep insurance on file continuously. Motor carriers who fail to keep insurance on file are subject to having their Certificates revoked and cancelled by the Commission.

Applications for Class A (Restricted), Class C (Taxicab), Class E Interstate and Class F Interstate Certificates of Public Convenience and Necessity are held in the Insurance Section until evidence of insurance is received and license fees are paid. Once these items are received, the applications are forwarded to the proper departments for processing and ultimately for Commission action. During 1989-90 approximately one hundred seven (107) applications were processed in this manner.

3. LICENSE TAG SECTION

Motor Carriers operating within the State of South Carolina on an intrastate basis, and carriers based in South Carolina operating on an interstate basis are required to purchase licenses based on vehicle carrying capacity or empty weight, ranging in price from $7.50 to $125.00 annually. These license tags are evidence of the motor carrier's compliance with the Motor Vehicle Carrier Law.

PUBLIC SERVICE COMMISSION LICENSE TAGS ISSUED BY CLASS:

CLASS A LICENSE.....	105
CLASS B LICENSE.....	0
CLASS C LICENSE.....	1,476
CLASS D LICENSE.....	230
CLASS E LICENSE.....	12,387
CLASS F LICENSE.....	1,689
TOTAL LICENSE TAGS ISSUED....	15,887

TOTAL LICENSE TAG FEES (NET).....	$1,177,566.29
RECEIPTS FROM S. C. TAX COMMISSION (Motor Vehicle Registration).....	$1,171,507.09
TOTAL MOTOR TRANSPORT FUND FEES...	$2,349,073.38

With the growth of the motor carrier industry in this State, together with the better enforcement of the Motor Carrier Law made possible by increased enforcement facilities, the number of licenses issued and fees collected have increased significantly. The fees collected are used to finance the operations of a portion of the Transportation Division, with the balance distributed by the State Treasurer to cities and towns throughout South Carolina.

B. RATES DEPARTMENT

The Transportation Rates Department is responsible for the administration of the Commission's Rules and Regulations, Policies and Procedures pertaining to services and tariffs of for-hire motor carriers, certain railroad matters and the transit operations of South Carolina Electric & Gas Company and Duke Power Company.

Applications or tariff filings for establishment of or changes in rates, fares, charges, classifications, rules or practices involving the transportation entities operating intrastate in South Carolina are processed through this department. Each application is analyzed and prepared for presentation to the Commission for disposition. Tariff files are kept for the one thousand plus motor carriers in this department.

Notices of and Applications for changes in railroad lines, agency stations and non-agency stations and the establishment of or changes in Mobile Agencies are processed in this office.

The city buses in Columbia and Charleston are operated by South Carolina Electric and Gas Company and the city buses in Anderson and Spartanburg are operated by Duke Power Company. Applications for changes in bus fares, routes, time schedules and other services are processed and prepared for Commission disposition by this department. On site inspections of bus services are conducted every six months.

During the year, 745 Applications for motor carrier and railroad contract or tariff changes were presented to the Commission for action. Three Complaints about motor carrier service were received.

C. LAW ENFORCEMENT AND SAFETY DEPARTMENT

The Law Enforcement and Safety Department consists of the following sections:

Law Enforcement Section

Motor Carrier Safety Unit

1. LAW ENFORCEMENT SECTION

The enforcement of Motor Vehicle Carrier Law of the State Section 58-23-10 through 58-23-60 of the South Carolina Code of Laws, 1976, as amended, is carried out by the staff of twenty-eight inspectors stationed throughout the State. During Fiscal Year 1989-1990, these Inspectors made a total of 3,193 arrests with a total of $172,462.00 in fines.

All of the Inspectors are certified by the South Carolina State Law Enforcement Division, and all have attended or will have attended in the near future the South Carolina Criminal Justice Academy as required by law. They wear uniforms and patrol in marked cars with two-way radios. The patrol cars are also equipped with C.B. radios which are used to contact other law enforcement agents and to assist the public. Their duties and responsibilities are to insure that the motor carriers under the jurisdiction of the Public Service Commission comply with the South Carolina Motor Vehicle Carrier Law and the Commission's Rules and Regulations Pertaining to Motor Carriers. The Inspectors investigate violations, issue warrants of arrests, initiate legal proceedings for violations, and work with the regulated carriers and with the public in helping them comply with the law.

VIOLATIONS

FISCAL YEAR 1989 - 1990

No Intrastate Authority	Sec. 58-23-40	88
Operating Out of Scope of SCPSC Authority	Sec. 58-23-40	12
No Interstate Authority (Interstate Carrier Domiciled in SC)	Sec. 58-23-80 Rule 103-152	35
PSC Tag Violation (Intrastate)	Sec. 58-23-40 Rule 103-154	130
PSC Tag Violation (Interstate)	Sec. 58-23-80 Rule 103-152	152
No Registered Certificated Interstate Authority	Sec. 58-23-640 Rule 103-251	132
No Registered Exempt Interstate Authority	Sec. 58-23-640 Rule 103-261	43
No Certificated Cab Card	Sec. 58-23-640 Rule 103-253-5	751
No Exempt Cab Card	Sec. 58-23-640 Rule 103-263-4	104
No Certificated Indentification Stamp	Sec. 58-23-640 Rule 103-257-1	1,280
No Exempt Indentification Stamp	Sec. 58-23-640 Rule 103-267-1	120
No Annual Report on File	Sec. 58-23-80 Rule 103-231	1
Improper Exempt Cab Card	Sec. 58-23-640 Rule 103-263-4	1
Reproduction of Certificated Cab Card	Sec. 58-23-640 Rule 103-256-1	11
Reproduction of Exempt Cab Card	Sec. 58-23-640 Rule 103-266-1	1
Improper Certificated Cab Card	Sec. 58-23-640 Rule 103-253-4	13

VIOLATIONS-(Continued)

No Interstate Insurance on File	Sec. 58-23-640 Rule 103-254-1	4
No Public Liability and Property Damage Insurance on File	Sec. 58-23-910 Rule 103-170	10
No Cargo Insurance on File	Sec. 58-23-910 Rule 103-173	2
Failure to Observe Road Control Signs	Sec. 56-5-950	56
No Lease on Vehicle	Sec. 58-23-80 Rule 103-222-1	25
No Identification Markings on Vehicle	Sec. 58-23-80 Rule 103-153-1	47
Violations of Classified Drivers License	Sec. 56-1-130	16
No Waybill or Bill of Lading	Sec. 58-23-80 Rule 103-162	11
Improper Displayed PSC Tag	Sec. 58-23-80 Rule 103-154	15
Speeding	Sec. 56-5-1520	15
Improper Rates	Sec. 58-23-1010 Rule 103-200	3
Parking Improperly	Sec. 56-5-2530	15
Alteration of Certificated Cab Card	Sec. 58-23-640 Rule 103-253(8)	4
Alteration of Exempt Cab Card	Sec. 58-23-640 Rule 103-263-8	1
Aiding and Abetting	Sec. 58-14-06	13
Violation of SC Open Container	Sec. 61-9-87 Code 94	1
Driving Under Suspension	Sec. 56-1-460 Code 96	4

Failure to Display Fuel Tax Marker	Sec. 12-31-640 Code 95	11
Signing A False Affadavit	Sec. 56-1-510 Code 19	1
Damaging Highway	Sec. 57-7-10 Code 94	1
Improper Use of Dealer Tag	Sec. 56-3-2320 Code 94	1
FISCAL YEAR TOTALS		3,193

COMPARATIVE ARREST REPORT

FISCAL YEAR	ARRESTS	FINES
1985-86	4,692	$222,934.95
1986-87	5,038	$235,316.00
1987-88	5,249	$234,428.00
1988-89	4,118	$199,279.00
1989-90	3,193	$172,462.00

2. MOTOR CARRIER SAFETY UNIT

The Motor Carrier Safety Unit is charged with enforcing the safety and hazardous materials regulations as they apply to commercial vehicles utilizing the state's highways. This office is also responsible for providing technical and educational assistance to the motor carrier industry. In addition, during fiscal year 1989-90, the unit started conducting safety reviews in accordance with federal guidelines. These reviews mean an on-site assessment to determine if a motor carrier has adequate safety management controls in place and functioning to meet the safety fitness standard. The safety review includes a review of selected carrier records and operations. It is used to gather information for assigning ratings to unrated carriers and may also be used to change safety ratings. The safety review will not ordinarily result in the institution of an enforcement action, but may if circumstances warrant.

In 1986, the State of South Carolina entered into a compact with the U. S. Department of Transportation to adopt and enforce the Federal Motor Carrier Safety Regulations (FMCSR). The Governor appointed the Public Service Commission to act as lead agency in this endeavor. The purpose of this action is to help reduce the incidence of commercial vehicle accidents, thereby reducing the overall number of deaths and injuries resulting from these accidents.

The unit employs twenty-six staff members. Three conduct administrative duties and twenty-three are assigned to five districts throughout South Carolina as uniformed safety officers. These officers have each received formal training in uniform commercial vehicle safety inspection procedures, safety review training, enforcement of the Federal Hazardous Material Regulations (HMR), as well as in-service training.

Vehicles and/or drivers found to be in violation of the safety rules and who present an imminent hazard to the motoring public are placed out of service and/or fined.

The safety inspection activities outlined above are funded on an 80/20 percent match by the Federal Department of Transportation. The actual amounts are determined through a formula based on highway mileage and the motor carrier population.

The Public Service Commission has entered into a nationwide compact with the Commercial Vehicle Safety Alliance (CVSA). This alliance provides for the issuance of CVSA Inspection Decals to vehicles found to be free of violations. This procedure allows free movement of commercial vehicles throughout the various states, provided that the transportation companies maintain their vehicles at a safe operating level.

The following statistical data reflects the activities of the Safety Unit:

MOTOR CARRIER SAFETY ANNUAL REPORT STATISTICS

July 1, 1989 - June 30, 1990

D. INTERSTATE REGISTRATION DEPARTMENT

Section 58-23-640 of the South Carolina Code of Laws (1976), governing the operation of interstate carriers certificated by the Interstate Commerce Commission and interstate exempt commodity carriers authorized the South Carolina Public Service Commission to promulgate rules and regulations pursuant to this Act. The Rules promulgated complied with the standards as recommended and approved by the National Association of Regulatory Utility Commissioners and the Interstate Commerce Commission.

The functions of the Interstate Insurance Section is to maintain the insurance filings made by for-hire interstate motor carriers.

The Insurance Section maintains a suspense file for approximately 60 days on insurance filings for which an application is not pending. Upon receipt of application, the filing is accepted and insurance filings which are not followed up by application are returned.

The Insurance Section notifies regulated carriers of an impending thirty (30) day notice of cancellation of insurance and if other coverage has not been filed within that time limit, the motor carrier must cease operation on the date stated in such letter.

Carriers coming under this category are charged a registration fee of $25.00, with amendments to the authority as registered, $10.00. Mobile Home transporters are charged one-half the amendment fee or $5.00. All motor carriers operating into or through South Carolina under Section 58-23-640 must purchase an identification stamp at $5.00 per vehicle.

Under the same Section, all exempt carriers operating into or through South Carolina must file a letter with this Commissiion setting forth their exemption. Fees are identical to those of certificated carriers.

During the period of July 1, 1989 through June 30, 1990, 3,051 certificated carriers registered their authority with this Commission. Prior registrants were 15,864. During this same period 1,016 certificated carriers were cancelled making a total of 17,899. There were 91 registrants of additional authority.

For the same period, 443 exempt motor carriers registered their letters of exemption. During this same period 2,236 exempt carriers were cancelled. Prior registrants were 8,446 making a total of 6,653.

Revenues From Certificated Carriers	$2,385,145.00
Revenues From Exempt Carriers	67,215.00
Net	890.00
TOTAL REVENUE FOR 1989-90	2,451,470.00

E. RAILS AND RAIL SAFETY DEPARTMENT

The Rail Safety Program was initiated to enforce the safety rules and regulations of the State of South Carolina. The program was certified by the Federal Railroad Administration in 1980 pursuant to the Federal Railroad Safety Act of 1970 (45 U.S.C. 435 (d) and 49 C. F. R. 212.33). The program consists of a Chief, a Motor Power and Equipment Inspector and a Track Inspector. The Motor Power and Equipment Inspector is responsible for the inspection and safety compliance of the thousands of pieces of rolling stock of the railroads. The Track Inspector is responsible for all phases of track inspection and safety compliance for the 2,100 plus miles of track in South Carolina.

The Rails and Rail Safety Department investigates train derailments to determine a cause, investigates crossing accidents where a train or railroad vehicle and a pedestrian or vehicle are involved, and also checks general complaints from the public.

During the past year, 2,467 miles of track were inspected in the State, 37 miles of which were visually inspected on foot. These track inspections resulted in 118 defects found and corrected. Also, 1,056 records inspections were performed with 12 deficiencies noted. Additionally, 1,342 turnouts and 287 derails were inspected and found to be without defects.

RAILROAD COMPANIES OPERATING IN SOUTH CAROLINA

Year Ending December 31, 1989
